THREE DEATHS AND TWENTY NEW CASES

Is the Report of Fever Situation in New Orleans.

QUARANTINE INJURING BUSINESS

Governor Vardaman, of Mississippi, Orders a Strict Quarantine of All Towns in His State Against New Orleans—Only Slight Spread of Fever.

New Orleans, July 31.—Official report of the city board of health to the state board of 20 new cases and three deaths, making a total of 227 cases and 47 deaths to date, indicate a very slight spread of the yellow fever here and to show all cases traceable to the original infection. Eighteen of the new cases are Italians, one an American, one a Frenchman and one German. All but five are below Canal street, and most of them in the French market section. One of those above Canal is the engineer of the steamship Cregan, a case reported from Central America, three others are Italians who came out of the lower district and the fifth is a young lawyer whose infection is doubtless traceable to the fact that his daily duties carried him to the civil district court. The court is located next to the historic Cabildo, within a stone's throw of the French market. Two of the three reported deaths are of Italians. There is still no report of New cases from outlying infection.

The most disquieting news in the yellow fever situation today is the evidence that panic is increasing in the smaller towns of Louisiana and Mississippi, and that a disposition is growing to revive the disastrous commercial quarantines of 1897, when some of the country towns even refused to receive ice or hardware from New Orleans. Columbia, La., bars all kins of merchandise except hardware. Utica, Miss., will not receive freight of any kind. Osyka, Miss., will take no fruit or vegetables. Jackson, La., wants no household articles from New Orleans. Several towns in Tennessee and others along the Mississippi Valley road in Mississippi refuse to allow express matter of any kind to be put off; Port Gibson, will not take bread nor anytaing wrapped in burlap that may be shipped from this city. Some of the Texas towns are asking that the mails be fumigated.

Quranatine Hurts Business.

If the movement to quarantine freight spreads, New Orleans will suffer much more seriously than from the fever itself.

Up to the present there has been no local apprehension of a dangerous epidemic and it was believed that if the boards of health in other states lived up rigidly to their agreement not to place any restrictions upon the transportation of freight there would be only a slight reduction of business and the chief inconvenience would be in the ability of country people to come here and of New Orleans people to go int othe southern towns and cities.

Anticipating quarantines, most of the business houses with the discovery of the fever, wired their drummers not to come to town but to remain in their territory so that they might travel freely and send in their orders as usual during the prevalence of the sickness, but if there is an embargo put on freight now New Orleans drummers will find their usefulness at an end and New Orleans' natural business will be diverted to other points.

The depopulation of the Mississippi Gulf coast towns of summer visitors from New Orleans continues owing to Governor Vardaman's determination that these towns shall have no commercial relations with New Orleans. The expectation said that he would not budge another position if every man, woman and child on the coast personally and Diarrhoea to him. He said leaving aside of it from the human life, an epidemic I saw a chance to get on the coast would reduce the half of 1 in depreciation of property alone. It will be

zens of these towns to be bottled up and eat mullet and crabs and escape the yellow fever, than to get all the revenue they can out of the refugees and have one case of yellow fever among them.

Much Sympathy for Memphis.

Much sympathy is felt here for the City of Memhis, which has been compelled to quarantine New Orleans against her will. On the first report of the fever that city sent a representative here who put himself in close touch with the situation and saw no necessity for quarantine, and the health authorites would doubtless have kept their promise not to bar New Orleans refugees if the imposition of quarantines by other cities against Memphis had not forced them to act in self-defense.

Some inconvenience has been felt by the Chattanooga quarantine. Many well-to-do people here were sending their families to Lookout for the rest of the season, but the putting up of the bars at Chatanooga will divert New Orleans travel from that point.

The board of health repeated today its anouncement that the destruction of bedding and household property has no place in its campaign and that no such waste of property will be attempted. In former epidemics here millions of dollars' worth of household property was destroyed in the effort to exterminate the supposed germ of yellow fever.

Quarantine Rigidly Enforced.

Jackson, Miss., July 31.—Governor Vardaman has returned from the Gulf Coast country where he went for conference with marine hospital service men, and reports all quarantine matters in good shape. He was besieged to let the coast have communication with New Orleans, but turned a deaf ear to all entreaties. The governor appointed Adjutant General Fridge to look after land matters and gave him a dozen men to assist him. In the event these are not enough to keep quarantine machinery in good order, General Fridge is to have more. He also states that he has arranged bars to keep all mosquitoes from infected districts. Surgeon Wasdin report that there is not a suspicious case in Bay St. Louis.

No Fever at Gulfport.

Mobile, Ala., July 31.—Special from Gulfport, Miss., says:

Yesterday a doctor said he had a case of yellow fever and the authorities went to him and brought him down and he acknowledged he lied and they made him sign a statement that he lied.

An ordinance was passed here yesterday to this effect:

"Any person making statements about yellow fever in Gulfport that is proven untrue, will be fined from $50 to $100."

The citizens of Gulfport have offered money to protect the coast.

Dr. Wasdin and Dr. Donald, of the United States marine service, are here and state that under present conditions there is no chance for yellow fever to get on the coast. They went to Lumberton yesterday and pronounced a case out in the woods about a mile from Lumberton yellow fever, and have surrounded the house with soldiers to prevent the disease from spreading.

The revenue cutter Winona has been ordered to Gulfport, and Captain T. J. Jones sent his launch, Grace Dunbar, to protect this port.

Fever on Board Steamer.

New York, July 31.—Seventeen persons were removed from the steamer Seguranca and transferred to the detention hospital for observation when the setamer arrived from Colon today. Two of these were first class and five second class cabin passengers and ten were members of the steamer's crew.

Eight of the crew had been ill during the entire passage of the steamer, but six of them were reported to be convalescent when the Seguranca arrived today.

Four members of the crew suffering from yellow fever were removed from the steamer just prior to her departure from Colon.

WIFE MURDERER IS GIVEN A REPRIEVE

New Lease On Life Is Granted Johann Hoch.

IS RESPITED UNTIL SEPTEMBER

All Was Ready for Execution When a Woman, Whose Name Is Withheld, Guranateed the Money to Carry the Case to Supreme Court.

Chicago, July 29—Hoch has been reprieved until the middle of September.

A woman with money effectually intervened today between "Bluebeard" Johann Hoch and the hangman. Almost on the steps of the gallows the combination of feminity and finance that has been potent throughout the remarkable career of the multi-bigamist ad wife-murderer secured a respite of two hours longer. After all arrangements were completed and death faced Hoch within two hours, a woman went to the rescue. So earnest did she appeal in an offer to furnish money

JOHANN HOCH.

necessary to allow Hoch to appeal his case, that there was a hurried consultation between officials. The upshot was that the execution planned to take place at noon was postponed until 2 p. m., the last minute allowed by law unless the governor should grant a further respite.

The woman is said to be wealthy and professed to have become interested in the case from humanitarian motives only. She enlisted in her aid Dr. Liston H. Montgomery, one of the most prominent physicians in the city. Dr. Montgomery acted as her intermediary in the negotiations. At 2 a. m. Jailer Whitman was aroused from his sleep to answer a telephone call.

Some person, who refused to give his name at the time, anounced that he would appear at the jail at 10 a. m., prepared to furnish money, the lack of which it had been alleged prevented Hoch from completing the records required by the Illinois supreme court in case of an appeal. The records cost $1,100. Hoch had $100 and a conditional pledge of $400 additional. [illegible] name was given [illegible] Jailer Whitma attached little importance to the notification.

Today at the hour named Dr. Montgomery with Mrs. Wilson appeared at the jail. Their talk with Whitman convinced him they were in earnest, and steps were at once taken for a new appeal to the governor.

Dr. Montgomery said:

"This lady, whose name is, far as I am concerned, must ever remain a secret, is actuated solely from humanitarian motives. It is the same cause which determined me to assist her. I became interested in the case from the standpoint long ago. I went over the testimony thoroughly. The deduction made by experts seemed absurd."

After Dr. Montgomery and Mrs. Wilson left the jail State's Attorney Healy talked over the telephone with Governor Deneen, who is at Springfield and who was made acquainted with the latest phase of the situation.

The governor told the state's attorney to ascertain whether the offer was bona fide and instructed Sheriff Barrett to delay the execution until 1:50 o'clock p. m.

HAND BOOK RESORTS RAIDED.

Chicago Police Interrupt Poker Games and 84 Prisoners Taken.

Chicago, July 29.—Spectacular raiding of hand book resorts in which 84 men were taken prisoneers in four hours' work marked John M. Collins' second day's work as general superintendent of the Chicago Police department. Then at night came descents on ten poker games.

Following out his startling action of Wednesday evening, when he interrupted several time-honored poker games, the new chief yesterday removed the assitant chief, Schuettler from the command of the raiding detail and took personal charge himself, announcing that he would hold his inspectors responsible for whatever gambling was discovered in their districts.

Armed with search warrants and sledges, the "gambling detail" continued at night the destructive raids which had terrorized the gambling fraternity during the preceding 24 hours. A score of warrants, to which the signatures of two police magistrates were appended, were give to the raiders, and descends on ten "clubs" were made before midnight. The paraphernalia or that part of it left intact after the onslaught of the raiders, was confiscated.

CANCELLED REVENUE STAMPS

Were Found on Big Shipment of "Stogies"—Arrests to Follow.

New York, July 29.—Arrests are anticipated here within a short time as the result of a seizue of cheap stogies reported from St. Louis.

The consignment taken by government agents numbered 48,000 and bore internal revenue stamps which are alleged to have been used once and from which the cancellation marks had been washed with acid. An investigation has benn in progress several months among the manufacturers in Hester and Mulberry streets and Internal Revenue Collector Anderson, a negro recently appoined for the southern district of New York, was much concerned yesterday over a charge that the illegal shipments may have been made possible by collusion with one or more of his deputies. He was unwilling to believe such a charge well founded.

By one of the revenue agents who has charge of the secret service end of the case, it is stated that the present investigation involves three manufacturers.

Another Scandal in Washington.

Washington, July 29.—George T. Moore, physiologist and algoonomist of the department of agriculture today tendere dhis resignatio to Secretary Wilson and it has been accepted. This action is the culmination of a hearing at the department yesterday at which it was alleged by two representatives of the agricultural publication that Moore's wife held stock in a company manufacturing culture for soil inoculation while Moore, who had charge of the preparation and revision of bulletins regarding the enrichment of farms directed farmers to the concern in question for their supplies of the culture.

Child is Burned to Death.

Huntsville, Ala., July 29.—The 18 months-old son of George Cantrell, of Hazle Green, met death by burning Thursday. The mother of the child left her two little ones at play in her room and went to the field where her husband was working. Returning in a few minutes, she found that the elder child had struck a match and touched it to a curtain with which the younger boy was playing and the blaze had incinerated the child. He was dead before medical aid reached him.

Large Donation to Charity.

Los Angeles, Cal., July 29.—Bishop Conaty of this diocese of the Roman Catholic church, confirmed today the report that he had received the personal check of a Los Angeles man for $225,000 as a donation to the home of the Little Sisters of the Poor, work on the construction of which is about to begin. Bishop Conaty declined to make known the name of the benefactor.

COTTON SEED OIL MILLS TO COMBINE

Will Control the South's Output of This Product.

IS CAPITALIZED FOR $10,000,000

Organization Will Include the Southern and American Cotton Oil Companies and the Kentucky Refining Company.

Louisville, Ky., July 29.—A combination of the cotton seed oil companies of the south is in process of consummation. The combination is headed by the Kentucky Refining company and includes the Southern Cotton Oil company and the American Oil company. The new company will be known as the Kentucky Refining company. This compay filed an amendment to its charter increasing its maximum business from $200,000 to $[illegible] and giving it the right to hold securities in other companies. Its corporate existence was also changed to 99 years. This amendment was made to permit of the holding of the securities of the companies it is proposed to merge. Later the maximum indebtedness will be raised to $10,000,000 or more.

According to President Ferguson of the Kentucky company, the headquarters of the company will be in Louisville, and this city will continue to be the center of the refining plants of the company. Crude oil mills will be conducted as now in the various large cotton centers in the south.

The combine is an economical move, the Southern and American being manufacturers of crude oil and the Kentuvky being a refining company

ELDER RAWLINGS FACES JURY.

Alf Moore, Negro Is Found Guilty of Murder.

Valdosta, Ga., July 29.—After the conviction of Alf Moore, alleged negro accomplice in the slaughter of the Carter children, J. G. Rawlings, father of the three boys previously convicted, was placed on trial Thursday afternoon.

The elder Rawlings claimed to be ill and reclined on a couch which the judge ordered brought into the court room.

Effort on the part of his counsel to have the case postponed proved unavailing, Judge Mitchell having been told by physicians that Rawlings was able to stand trial.

Drs. B. S. Burton and W. E. Rouse who have been treating the prisoner in the jail, were called to the stand for the purpose of testifying to the physical condition of the man and both of them testified in their examinations they found him suffering from a trouble that was quite painful at times, but that they considered him able to stand the rial. Both physicians swore that they failed to find any disease of any vital organ, and that in their opinion he was as able as he would be at any time to go on trial.

The elder Rawlings appears to be in a state bordering on nervous collapse, the conviction of his boys evidently weighing heavily on him.

Plot Against Sultan Discovered.

Bucharest, Roumania, July 29.—A plot against the life of the sultan of Turkey has been discovered by the authorities at Kustenji. A search of houses occupied by Turks disclosed large quantities of revolvers rifles cartridges and compromising documents. The Roumanian officials subsequently discovered cases of rifles hidden in the hold of a Turkish steamer now at Kustenji.

Athlete Dies of Over Indulgence.

Chicago, July 29.—A Tribune dispatch from El Paso, Tex., says that as a result of over-indigence in athletics while a student at Columbia university Arthur T. Kerr, 22 years old, is dead here. In a cross-country run in February, Kerr being thinly clad contracted a cold which developed into tuberculosis. He was graduated from Columbia in 1904.

GAINEY COMMITS ANOTHER MURDER

Killed Rhodes Sullivan, An Aged Man, Near Columbia City.

IS AN ESCAPED CONVICT

Made Successful Escape from Baker's Turpentine Camp, Near Campville, Few Weeks Ago, Was Chased to Gainesville and Lost.

Tom Gainey, who was sent up for life from the circuit court of Alachua county for the murder of a colored woman in the vicinity of Alachua and who made his escape from the turpentine camp of P. H. Baker at Campville a few weeks ago, full mention and particulars of which appeared in The Sun, is guilty of another murder, having killed an aged colored man near Columbia City, Columbia county, Thursday.

Thursday afternoon Sheriff Fennell received a telegram from the sheriff of Columbia county asking him to come at once and bring his hounds, as Gainey had killed another man. The sheriff could not go, but endeavored to get a message to Deputy Sheriff J. H. Granger, who was then in the vicinity of High Springs, to proceed to Fort White and assist the Columbia county officer. Officer Granger did not receive the message, however, and returned to Gainesville Friday morning.

Mr. Granger learned of the killing and said at one time he was inclined to go to the assistance of the Columbia county authorities, but inasmuch as he was working under direction of the Alachua county sheriff, thought it best to return home. Should he have gone his action would have been in accord with Sheriff Fennell's wishes.

Officer Granger states that from the particulars which could be learned at High Springs, Gainey killed a colored man named Rhodes Sullivan. It appears that Sullivan has been working in connection with the officers of Columbia county in an endeavor to effect Gainey's capture. Gainey learned this, and at an early hour Thursday morning he was watching the house, and when Sullivan went out on the piazza and was in the act of putting on his shoes he was shot dead, four buckshot from Gainey's gun having entered his head.

Gainey, who is a desperate man, is still at large.

Gainey's Escape.

The particulars of Gainey's escape from Campville have already appeared in this paper. It may be well, however, to refresh the reader's mind, that he was serving a life sentence in the Baker turpentine camp, and always gave the management and the guards more trouble than all other convicts combined. He was regarded as mean, tricky, and of that butt-headed disposition which was to say the least provoking. If he decided he did not care to work at certain times he was worse than a balking horse, and no force or persuasive power could induce him to move. Upon one occasion he took advantage of an opportunity to make his escape, and was successful, having shielded himself behind other convicts until he had progressed a safe distance. The guard was afraid to fire, because it endangered the lives of other prisoners, with the result that when he did fire the range was too long to be effective. Gainey was chased to Gainesville, but in North Gainesville the dogs gave up the chase, and the fleeing convict made his escape. He has since been at large.

Wrote Broward a Letter.

From High Springs Gainey wrote Governor Broward a unique letter, in which he stated that he was not being entertained at the Baker camp with the hospitality which he thought was due him, and had decided to leave. "I did not kill that woman anyway," he concluded, "and I do not propose to suffer for it, so good-bye."

CHOLERA INFANTUM.

Child Not Expected to Live from One Hour to Another. But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

ALACHUA HAPPENINGS.

Fight Between Two Prominent Citizens—Notes of Personal Interest.

Alachua, July 27.—Miss Hattie Fowler has returned to Lake Butler.

C. A. Williams, after spending a month in Northern markets, returned Monday.

Miss Trixie Rives is back from South Carolina.

W. T. Robarts is back after a month's vacation.

Miss Mamie Stork has returned from a visit to Reddick.

Miss Daisy Cato of Newberry is visiting relatives at this place.

The shade trees on the streets have been trimmed up, which helps the looks of things.

Dr. R. A. Caswell and J. C. Etheridge were the defendants before Mayor L. N. Pearce Wednesday at 2 o'clock charged with fighting. Both plead guilty, but Dr. Caswell withdrew his charge and two witnesses were secured. Both defendants were found guilty and Dr. Caswell fined $5 and costs of court, and Mr. Etheridge was fined $5. It was an exciting time for our burg, and the mayor's court was well attended.

The poles for the telephone line have nearly all been put in place, and it will only be a short time when we can "Hello" with our neighbors.

Crop reports are good. Some cotton is opening and it is predicted that several bales will be ginned here by August.

T. W. Thomas, one of the county's most substantial farmers, has moved his family to Southerland. Their many friends here expect to lose them, but wish them well in their new home.

Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." J. W. McCollum & Co.

North Gainesville Deal.

J. B. Crawford and W. H. Palmer, it is understood, have purchased what is known as the tobacco farm in North Gainesville. The tract comprises two acres, more or less, and is among the most desirable property in that thriving suburb.

It has not been learned what the new owners propose to do, but it is supposed that they will erect several cottages, the demand for houses in North Gainesville being great.

Forced to Starve.

B. F. Leek of Concord, Ky., says: "For 20 years I suffered agonies, with a sore on my upper lip, so painful, sometimes, that I could not eat. After vainly trying everything else, I cured it with Bucklen's Arnica Salve." It's great for burns, cuts and wounds. At all drug stores, only 25c.

MUST HAVE THE SUN.

Gainesville's Former Fire Chief Deeply Interested in City.

A. J. McArthur, former chief of the fire department of Gainesville, but now residing at Collins, Ga., where he is superintendent of the Pine Products Co., writes the editor of The Sun under date of July 26th as follows:

"We can't live without The Sun. Please find enclosed one dollar. Send us that much worth of 'Twice-a-Week' Sunshine.

"I congratulate Gainesville and all her hard working citizens for her great victory in getting the State University. The Gainesville people always were a hard-headed lot, and when they set out to do anything they generally get there. There is only one thing I am sorry for, and that is that I wasn't in the fight.

"We are living the 'Simple Life' up here in Collins, but we think of you all very often and wish you all manner of success."

The Diamond Cure.

The latest news from Paris is that they have discovered a diamond cure for consumption. If you fear consumption or pneumonia, it will, however, be best for you to take that great remedy mentioned by W. T. McGee of Vanleer, Tenn. "I had a cough, for fourteen years. Nothing helped me, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which gave instant relief, and effected a permanent cure." Unequalled quick cure for throat and lung troubles. At all drug stores; price 50c and $1, guaranteed. Trial bottle free.

Masonic Work at Williston.

Several members of the Gainesville lodge of Masons went Thursday to Williston, where they conferred special work in the various degrees. The reputation of the working team of the Gainesville lodge has caused that team to be in demand, with the result that within the past few months there have been extended numerous invitations from every section of the State to come and participate in the initiations.

Among those who went to Williston were W. B. Higdon, A. M. Cushman, J. H. Coffee and Marcus Endel, all of whom are Masons well read and competent to give the work in the proper style.

The visiting members were treated well, and they will not soon forget their trip to Williston.

Indigestion,

With its companions, heartburn, flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, sallow skin, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles. 50c bottle. Sold by W. M. Johnson.

First Cotton of the Season.

The first cotton of the season in Alachua county, and probably in the State, was brought to Cadillac Thursday last and was purchased by C. B. McClenney, Sons & Co. It was grown by a colored man in the vicinity whose name we did not learn.

The price is not divulged, but it is safe to say that Messrs. McClenney, who are always up to date, paid enough for the privilege of buying the first of the season.

Baseball Players and Foot Racers!

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland, writes Oct. 27, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c and $1. Sold by W. M. Johnson.

Baseball Game.

The Gainesville and Micanopy baseball teams crossed bats for the championship at the baseball park Friday afternoon, which resulted in a victory for the Micanopy team, the score being six to eight in favor of the visitors.

The Micanopy boys played good ball, and deserve credit. They demonstrated the fact that they knew a thing or two about the National game.

A Surprise Party.

A pleasant surprise party may be given to your stomach and liver by taking a medicine which will relieve their pain and discomfort, viz: Dr. King's New Life Pills. They are a most wonderful remedy, affording sure relief and cure for headache, dizziness and constipation. 25c at all druggists.

TIMELY ADVICE OF THE HEALTH OFFICER

Warning to Property Owners and Householders About Mosquitoes.

PAY ATTENTION TO SANITATION

How to Prevent the Breeding of Mosquitoes—The Pantry and Refrigerator Should Be Looked After—Ripe Fruits Are Healthy—Milk Easily Tainted.

Dr Joseph Y. Porter, State health officer, has issued an address to the people of Florida, from which we quote the following prominent points:

The summer months embrace a period of the year when, through atmospheric changes and elevated temperature, fermentation and putrefaction occurs rapidly and is likely to produce sickness of many kinds. It should, therefore, be the care of all householders to keep their premises clean and clear of any fermentative trash and filth.

Keep the premises clean inside and outside the home; ventilate the house and let in sunlight and fresh air; bathe daily or bi-daily; persons who perspire freely should change under garments frequently.

Disinfect the water-closets and air clothes closets.

The refrigerator and pantry should be kept sweet and clean, and prohibit keeping fish, fruit and vegetables in the same compartment. Milk easily absorbs odors and should be kept in tightly closed rubber-gasket bottles or dishes and on ice. Condensed milk is safer for bottle-fed babies.

Ripe fruits are healthy in summer and but few disagree with old or young. Shun articles of fruit, fish, meat or vegetables which tax the digestive organs. Don't overeat. Nature does not require as strong diet in summer as in winter. Fruit and vegetables will keep the bowel function in order without purgation from many of the nostrums offered.

It is no longer a theory or a "fad" of some "crank" doctors that certain mosquitoes carry disease by acting as intermediary hosts to the human being. Mosquitoes of the genus Anopheles (which means vagrant or worthless) do convey, when infected, the malarial parasite to the human. This has been proven beyond any shadow of doubt, as has also the fact that the Stegomyia genus of mosquito conveys, when infected, the germ—perhaps parasite—of yellow fever; in the same manner dengue is thought to be conveyed by the genus Fatigans, and it has not, as yet, been determined how many more of these same kinds and description of fevers may not, although now unknown, be conveyed to the human through the mosquito acting as a means of transmission.

These scientific facts should not be poo-pooed or ignored by the people. They are not only worthy of thought, but of deliberate and careful heeding. A single female mosquito will lay a sufficient number of eggs in a water pitcher in an unused bedroom to not only fill the house with her offspring, but supply the neighbors within the radius of the square.

Standing water of any kind, in the yard or house, in house plants, saucers or receptacles, whether fresh or brackish, will afford the female mosquito an opportunity to propagate her species, for she must have water to lay her eggs in or upon. No water, no mosquitoes, may therefore be accepted as an axiom. By looking after these details the mosquito pest will be considerably lessened, and particularly in that portion of the State where artesian wells are plentiful and rain water is not required for portable purposes.

Cisterns and tubs required to store rain water should be screened with 16-to-the-inch wire gauze to prevent the female mosquito from depositing eggs, and a teaspoonful of kerosene oil to 10 square feet of water will prevent hatching of any which might be in the water, as the oil will kill the "wiggle" when he comes to the surface.

Attention to mosquito prevention and destruction will lessen and in time effectually rid a community of malarial reputation. So, too, will a hindering of mosquitoes prevent yellow fever from spreading, where the particular species of mosquitoes which convey yellow fever exist and are abundant. No one should sleep, and particularly at night, where mosquitoes exist, never mind of what species, without a net, and care should be taken to see that no mosquitoes have gotten into the net after it has been lowered about the bed.

The malarial mosquito and the yellow fever mosquito do the work of infection after 5 o'clock in the afternoon, and before daylight the next morning; in other words, during the hours of darkness and semi-darkness. If this fact is remembered and a little care taken, never mind what the alluvial conditions may be or what the miasm, an escape can be had from malarial infection or from yellow fever infection if attention is paid to mosquito generation, in preventing their breeding, when individuals happen in a country or community where these two diseases may be prevailing.

Ayer's Hair Vigor for Falling Hair

Falling hair means weak hair. Then strengthen your hair; feed it with the only hair food, Ayer's Hair Vigor. It checks falling hair, makes the hair grow, completely cures dandruff. And it always restores color to gray hair, all the rich, dark color of early life.

"My hair was falling out badly and I was afraid I would lose it all. Then I tried Ayer's Hair Vigor. It quickly stopped the falling and made my hair all I could wish it to be."

FRANKLAND SELLS OUT.

E. D. Camp & Co. Buy Mines and Will Continue the Business.

B. F. Fontaine of Micanopy was in the city Thurday. Mr. Fontaine, who is connected with E. D. Camp & Co., phosphate miners and buyers, states that the Camp Company has recently purchased the mine of the Frankland Phosphate Company at Frankland, and will continue to operate same. This is the first mine of the Camp Company, who have heretofore been in the buying and brokerage business, but the company has engaged a full force, and will hereafter conduct this and other mines.

The Frankland phosphate plant, while small, is one of the most profitable in the belt, when it comes to turning out rock. It is a one-log plant, but can produce from thirty-five to forty tons a day, when worked on full time.

E. D. Camp & Co. have already made themselves felt in Alachua county, and expect within a short time to be recognized as among the most profitable miners, buyers and shippers of phosphate in the country.

YELLOW FEVER CASE AT WEST TAMPA

Brought There From New Orleans By An Italian.

DR. PORTER NOW ON THE SCENE

A Vigorous Effort Will Be Made to Prevent Its Spread—Hopeful That No Other Cases May Come Up—West Tampa a Suburban Town.

Special to The Daily Sun.

Jacksonville, July 27.—Dr. J. Y. Porter, State health officer, announces that the Italian at Tampa, who arrived there a few days ago and had symptoms of the yellow fever, has the disease.

He is in West Tampa and a cordon of guards has been placed about the district.

Dr. Porter is hopeful that there will be no other case.

West Tampa is about two and a half miles from the city proper and on the opposite side of the Hillsborough river, being connected by a bridge. There are many Italians residing there and the sanitary conditions are not of the best.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

CEDAR KEY PROPERTY IN A BIG MUDDLE

Proceedings to be Inaugurated Which Will Cause Trouble.

GAINESVILLE LAWYER ACTIVE

Files Bill Asking for Removal of Cloud of Title and Claims that Titles on All Property of Town of Cedar Key Are No Good.

One of the most important cases ever filed in this State has just been filed at Bronson, the county seat of Levy county, which involves the question of title of the entire town of Cedar Key.

This case is in the nature of a bill filed by Attorney W. E. Baker of this city to remove the cloud from title and for injunction against the Cedar Key Town Improvement Company, represented by J. A. Williams, L. B. Parsons and others. Attorney Baker is representing in the cause the heirs of Thos. H. Parsons, being James [illegible]on of Rosewood, J. T. Pierson [illegible]. H. Pierson of Hillsboro county.

The bill sets forth many irregularities of the titles of the property owned in Cedar Key. The claim is based upon a patent granted by the United States Government as far back as 1853, to Thos. H. Parsons, on what was known as an armed occupation permit, which was issued to Mr. Parsons in 1842. The defendants, many of whom have owned this land for several years, claim possession by the swamp land act of 1850, under which act the State came into possession of all the swamp and overflowed lands which were owned by the United States government, and on which no settlement had been made prior to the passage of the act.

The patent in question covers about 164 acres, and includes the entire area of the city of Cedar Key, improved and unimproved.

Cedar Key is a town of nearly a thousand inhabitants, and one of the most important fishing points on the Gulf Coast. Its oysters are noted the world over for their excellent flavor, which has brought the town into great prominence. The fishing industry, as well as oyster canning establishments and other factories akin, have been worth a great deal commercially to the city and its people, with the result that progress, while not brisk, has been steady, and the people have prospered and built for themselves nice business houses and homes. The result is that the Cedar Key folks have lived comparatively unmolested by trouble of the outside world, have built themselves up to comfortable livings, and are perfectly contented among themselves.

But this new turn of affairs is going to enliven things in Cedar Key. It will be like stirring up an ant's nest, and it is no more than natural that the people will rise as a unit in opposition to the cause, for they feel that Cedar Key belongs to them, especially that portion of town which they have bought and paid for with hard-earned money, and which they have held unmolested for many years. The outcome of the case will naturally be looked for with a great deal of interest and anxiety.

Attorney Baker seems to be confident in the matter, and says he will win out. He is an unusually shrewd young man, and declares he knew what he was about before entering the case, as he had sifted the matter to the bottom. "There is no doubt in the world but that this property will revert back to the heirs," he said, "because it is as plain as the nose on a man's face that it belongs to them under the original grant."

Attorney Baker states that the present suit is to remove the cloud from the unimproved property. All property was deeded or granted at the same time and under the same act, however, and it will be his purpose to have brought cases of ejectment of owners of improved property.

These proceedings will be watched with interest, as the outcome means a great deal to the people who are responsible for the making of Cedar Key.

Seek to Annul Club's Charter.

Jefferson City, Mo., July 29.—Quo warranto proceedings prepared by Attorney General Hadley were filed in the supreme court today seeking to annual the charter of the Delmar Jockyy club, and to confiscate the property for the use of the state. Judge Marshall, of the supreme court, issued an order directing the respondent to appear before the supreme court on [illegible]. 10, to show cause why the char[illegible] should not be annulled and the

A GOOD APPOINTMENT.

Prof. J. H. Moffatt Selected Principal of Tampa School.

The following, taken from a recent issue of The Tampa Daily Herald, will be read with interest by people of this section:

"The local Board of School Trustees yesterday elected Prof. J. H. Moffatt of Micanopy as principal of the Hyde Park Grammar School to succeed Professor Ellis, who has decided to enter other lines of work. The board further stipulated that Professor Moffatt shall receive a compensation of $100 per month. Other members of the faculty have previously been appointed by the county school board. Professor Moffatt is in every way a capable successor to Professor Ellis. The new principal held a similar position last year with the Crescent City High School and is recognized through the State as one of the leading public school instructors. Mr. Moffett is a brother of Mrs. Glen Smith of this city."

Back From Cuba.

J. O. Andrews of this city and J. U. Densler of High Springs returned Saturday from Cuba, where they have been for the past few days. They went direct to Havana, from whence they proceeded to Camaque, Province of Puerto Principe, which is in the heart of the most fertile section of the island. This is the farming season in Cuba, and they report magnificent crops, with every indication of a prolific yield.

The principal crop in the Province of Puerto Principe is sugar cane, where hundreds of thousands of acres are now in cultivation.

The gentlemen state that they had the pleasure of seeing M. W. Wooding, formerly of this city but now agent of the Southern Express Company in Havana, and that he and his excellent family are enjoying good health and are well pleased.

REMEDY FOR TEXAS CATTLE TICK

Method Discovered to Help Southern Cattle Raisers' Business.

Knoxville, Tenn., July 29.—A director of the government agricultural experiment station in this city has devised what is said to be an entirely practicable method of ridding a farm of the Texas fever cattle tick.

The mtehod is exceedingly simple and inexpensive, and it is said can be practiced upon practically any farm in the south. The Texas fever having been the bane of the cattle industry in the south, the discovery is regarded as being invalauble to farmers and cattle raisers of the south. He has been enabled to work out this method by a careful study of thehabits, life and history of the tick which conveys the disease from one animal to another. The details of the method are given in official bulletins on the Texas fever cattle tick, just issued by experiment stations in this city and Baton Rouge, La.

Doubts as to a New Treaty.

Washington, July 29.—Some doubt expressed in official circles whether it will be possible to obtain China's consent to another treaty with the United States providing either for the exclusion of the Chinese laborers from this country. The state department is aware of illfeeling throughout China on the whole subject and now that the immigration treaty with China has been allowed to lapse without negotiation of a new agreement, reports have reached here that China is inclined hereafter to refuse to sign any similar convention.

Scientific Photographer Dead.

Philadelphia, July 29.—John C. Carbutt, known to photographers the world over, is dead at his home in this city, aged 73 years. He had been a sufferer from Bright's disease for more than a year. Mr. Carbutt came to this city from Sheffield, England, in 1853. He was a skilled chemist, and made scientific photography a life study. The Photographers' Association of America chose him as their first president.

Judge F. B. Carter has ordered a special term of the Escambia circuit court at Pensacola to try William F. Williams, the young man who murdered John White and Edward Dansby at Pensacola.

GENERAL APPROPRIATION BILL.

Is Reported to the House—Other Important Measure Before Solons.

Atlanta, July 29—The general appropriations bill for 1906 and 1907, which was reported back to the house by Chairman Davis Thursday in record-breaking time, carries a total of $4,166,648.14 for each of these years. This amount covers the total annual expenses of the state.

The general appropriations bill, under the rules of the house, has the right of way over everything. It was made the special order for Monday, July 31, and will be constantly before the house until completed.

While increases were made in certain appropriations aggregating $85,350, other items were cut out by the committee and one or two items were scaled, so that it is stated, the bill does not carry more than a few thousand dollars increase over the total for 1905. For instance, the $25,000 given for a building at the state normal school in 1906, does not apear in the bill. The $5,000 given to the roster commission was cut out, because the commission has enough left to operate on.

An interesting debate is promised in the house on Wednesday next, Aug. 2, when the child labor bill, by Mr. Bell, of Fulton, will come up as the special order immediately after the reading of the journal. This bill comes back from the committee on labor and labor statistics with a favorable report by a vote of 17 to 6, and it is said to have a strong following in the house. The debate has been limited to one hour on each side, so that it is likely a vote on the bill will be reached on the day of consideration.

In the Senate.

Only the per diem and the actual expenses of senators on the various visiting committees will be paid this year, and then only after an itemized statement of such expenses has been submitted to and approved by the auditing committee.

This was determined upon definitely and positively by the senate Thursday when Senator Copeland's resolution relative to the visiting committees was unanimously passed by the senate.

It is now up to the senate to say whether Georgia shall have a state reformatory for the care, education and reformation of youthful criminals. The house passed the Felder reformatory bill Thursday, after a three days' debate, by the unusually large vote of 122 to 25. The big vote for the bill was really a surprise to the most ardent advocates of the measure.

Special Term to Try Murderer.

Pensacola, Fla., July 29.—A telegram was received here from Judge Francis B. Carter, at Marianna, ordering a special term of the circuit court for the purpose of trying William F. Williams, the young man who is held on the charge of murdering John White and Edward C. Danby, ten days since. Numerous petitions and items were sent S. G. Carter, who was recently appointed judge of this circuit in which he was asked to give Williams a speedy trial and thus allay feeling that might exist. Attorneys have been employed by the defendant and it is probable that they will ask for a change of venue. The special term is to convene Aug 9th.

The law breakers in this State that are now causing the most trouble and expense are the people who are trying to break the laws passed by the last Legislature. These laws are objectionable to them and they are determined to break them, no matter whether they suit the majority of the people or not.

APPEAL TO FLORIDIANS.

The Florida Historical Society, which was organized November 26, 1903, has recently been incorporated under the laws of this State. Its objects are as follows: "The collection, arrangement and preservation of all material pertaining to the history of or in any manner illustrative of Florida, including books, pamphlets, documents, manuscripts, newspapers, diaries, notes, letters, speeches, maps, portraits, photographs or other likenesses of men and women prominent in Florida history, pictorial illustrations of Florida scenery, buildings, establishments, institutions, monuments, relics and products. Also relics of every kind whether historical or pre-historical, fossils, geological specimens and everything in any manner illustrative of Florida."

The provision for membership is "All Persons of Good Character" upon approval of the board of directors. The dues are five dollars per annum.

The Society has been given the use of a large and commodious room in the Jacksonville Public Library (which is fire-proof) for the reception and safekeeping of all its collections and property and in which to carry on its work which has now been actively entered upon.

The cost of furniture, cases, files, etc., together with the necessary clerical assistance, will approximate $1,000 for this year.

Failing to procure aid from the last Legislature, the Society must depend upon the dues of its members to meet its expenses.

Every intelligent person who has any State pride must realize and feel the value and far-reaching importance of the work in which the Society is engaged.

We appeal to all such for aid and encouragement. Send us your application for membership with a check for five dollars to Rev. V. W. Shields, Treasurer, for one year's dues. But whether you apply for membership or not send us books, pamphlets, papers, pictures, maps, relics, articles from Indian mounds, fossils, biographical or historical sketches and incidents and printed matter, historical or descriptive, having any bearing upon Florida.

Send to Florida Historical Society, Public Library, Jacksonville, Fla.

If the people of Florida will contribute what they reasonably can we will soon have a collection of priceless value.

GREAT SNAKES.

The impression that all the snakes, alligators, insects and other pests are located in Florida is erroneous. Michigan can beat Florida for big ones and dangerous reptiles, as the following from The Caro (Mich.) Advertiser will show:

"While Mr. and Mrs. M. E. Rickert of Lapeer were fishing at Long Lake, and while the husband was fishing near the shore, the lady was rowing about near shore when suddenly a mammoth blue object at the side of the boat attracted her attention. She saw it was a snake of the Blue Racer variety and struck at it with an oar. The snake disappeared under water only to appear on the opposite side of the boat. She again struck it with the oar, and after being under water for some time it attacked the boat, this time succeeding in crawling part way in. Mrs. Rickert seized a small rifle which her husband brought with him, and shot the reptile through the neck.

"After getting Mr. Rickert, who had witnessed the struggle from shore, they rowed out and pulled the dead snake in the boat, and upon measuring it, found it to be over fifteen feet in length and sixteen and one-half inches in circumference."

Guess that Levy county snake will have to give the palm to Michigan.

WHY THEY LEAVE HOME.

Many people wonder why foreigners leave their homes and come to this country to live. In many instances they are opposed to being driven into the army, where they put in the best portion of their days, and they have heard of freedom and are desirous of enjoying, so they desert the army, or by some method doctor their eyes so as to incapacitate them for service and sail for the land of the free, where they become citizens. But that does not free them from the Fatherland, as will be seen by a recent dispatch, which says that after living for thirty-one years in the United States, August Ptaff, a well known resident of Cleveland, O., who returned to Germany on a visit, has been arrested by the German authorities while on a visit to his native town of Haeeking, Germany. The information came in a letter to his son. The letter stated he had been in jail two weeks and would probably remain in prison for some time, although he hoped eventually to be released upon the payment of a fine.

No matter how long he may reside in this country, if he deserts the army he is liable to arrest on his return, and who wouldn't want to leave such a country like that?

WORTHY OF COMMENDATION.

The thorough work of the State Board of Health is worthy the admiration of the entire people of Florida. Dr. J. Y. Porter, State Health Officer, has been most thorough in his work, and we feel as though the safety of the people could not be placed in better hands. Regarding the Tampa case Dr. Porter has the following over his own signature:

"No quarantine will be placed against Tampa, nor is there any necessity for such action, but the square, with inmates, in which the man is sick will be quarantined, and every person occupying the same will be daily seen and kept under close observation. There is no need for scare or alarm on the part of the people of Tampa or of the State. While it is wished that case had sooner come under control of the health authorities and the previous whereabouts of the man, which should have been considered suspicious by any carefully thinking person, had been promptly reported, yet the State health authorities hope to destroy mosquitoes which may have bitten this man before the period in which the infection is known to develop and be capable of infecting the human. This period, it has been demonstrated, is twelve days from the incipient biting of the yellow fever patient.

"It will be noted that this man reached Tampa before yellow fever was known to exist in New Orleans by those without that city, although it is now learned that persons of the Italian colony in Tampa knew from New Orleans friends that a suspicious fever existed in New Orleans some three weeks ago.

"It is also interesting to note that this man came from St. Philip street, the press reported infected district of New Orleans."

WILL CZAR ABDICATE.

There is talk of the abdication of the Czar of Russia from his throne. If he should do so, we will give him credit for having more sense than has been accorded him in the past. While he has been dubbed a sort of "sissy man," he will do the proper thing by stepping down and out before he is humiliated at the peace conference, which he certainly will be if any terms of peace are reached.

He is like a whipped bully. For years we have been led to believe that the Czar of Russia was the head of the greatest nation of fighters on the earth, and now that little Japan has driven his armies nearly off the surface of the sphere, he would never be considered of much account if he remained as Czar, for his methods would not be changed toward his own people although he would appear to other nations as a nobody at the head of a people that would always be plotting for his overthrow.

GEN. ROBERT BULLOCK DEAD.

The Ocala Evening Star of Thursday, July 27, says:

"General Robert Bullock, who has been confined to his bed for several months, died this afternoon at 1:30. While it was hoped for a long time that the General's strong constitution would bring him through his illness, it was very apparent during the last few days that he was nearing the end, as he grew weaker, and his mind began to wander. He was the oldest citizen in the county, having come here in 1845, and its leading one, he having taken an important part in every move that tended to promote the best interests of the community. He was a brave and gallant soldier, was prominent in the councils of his party and served two terms in Congress with distinction. His death is deeply deplored."

Judge Gordon of Tampa has made a name for himself in the Park-Bomford trial and the press and public of the State are loud in their praises of his noble words addressed to the jury and prisoner. We want more of such men in public places—and have a profound respect for [illegible] home—but the[illegible] from [illegible]getting it.

CABINET OFFICERS' SALARIES.

A Washington correspondent announces that an effort is to be made in the next Congress to increase the salaries of the cabinet officers. The complaint is made that the secretaries cannot live in the style they should on the money they now receive. Well, says The Commoner, that is a matter of opinion. If your country is going to ape the monarchies of the old world and attempt to awe the masses with gorgeous social display, then it will be necessary to raise salaries all around. But if government officials are willing to observe the simplicity that befits a republic the salaries are sufficient. The congressmen and senators who live within their salaries are the best officials in those bodies and it would not be difficult to find competent cabinet officers who could live on cabinet salaries.

Instead of trying to imitate the extravagance of Eurapean officialdom it would be refreshing to see our country set an example in the careful use of public money. Every increase in official salaries tends to lessen the number from which selection can be made. There is a growing tendency to measure men by their incomes—those who give all their time to money making being ranked higher than those who give part of their time to the public. If an increase in official salaries is made it will be followed by a demand for more higher priced corporation attorneys in the public service—and we have enough now.

The offices ought not to be taken out of reach of those who prefer to be known because of their contribution to the world rather than because of the money they have collected from society. The government needs public-spirited, patriotic officials, not men whose souls are bent on getting rich.

CUT IT OUT.

It should be noted that many newspaper writers in Florida and other Southern States have formed the habit, when writing of some contemptible criminal and his misdeeds, of mentioning that he comes of a good family, or that he is well connected, as though it were a pertinent fact in the case. The history of America shows clearly that birth has little or no connection with moral worth. What pride of ancestry had Webster, Clay, Jackson, Lincoln or thousands of other worthy American citizens? Let's cut that feature of the description out as of no consequence. Every man is just what he is himself, without regard to what his father was.—Pensacola Daily News.

If such men were tried on their merits, without regard to ancestry, and let their past records count, there would be more help on hand to gather the turpentine product.

Many young men who are starting out in life look about for some one after whom to pattern, when the fact is apparent that success in life, by whatever standard that success be measured, depends more upon the man than upon the examples before him. There are qualities inherent and qualities that may be cultivated that mean eventual success provided their owner is of the "right sort." Without any example at all a man with those qualities will succeed. Without them, and yet with the most lustrous example the world has ever seen, no man can succeed.

The expenditures of the government are now piling up so fast that a war tax is the only way out of the difficulty. Big navies come high, but we must have them to watch our possessions. If we would only have a sale of our Pacific possessions and get out even, we would be ahead in a few years.

The commissioners of the counties of Brevard and Duval held a meeting and divided up the money and now each one will pull for itself.

The Food Value of a Soda Cracker

You have heard that some foods furnish fat, other foods make muscle, and still others are tissue building and heat forming.

You know that most foods have one or more of these elements, but do you know that no food contains them all in such properly balanced proportions as a good soda cracker?

The United States Government report shows that soda crackers contain less water, are richer in the muscle and fat elements, and have a much higher per cent of the tissue building and heat forming properties than any article of food made from flour.

That is why **Uneeda Biscuit** should form an important part of every meal. They represent the superlative of the soda cracker, all their goodness and nourishment being brought from the oven to you in a package that is proof against air, moisture and dust—the price being too small to mention.

EN. ROBT. BULLOCK HAS PASSED AWAY

...of the Useful Life of a Grand Old Man.

...OLDIER HERO AND STATESMAN

...presented Second District in Congress Four Years—Beloved by Many ...d Comrades in Alachua County. ...Public Career in Florida.

...ala, July 28.—General Robert Bullock, Florida's grand old man, died at ...home here at 1:29 o'clock Thursday ...noon after a long illness.

...eral Bullock was born in North ...lina December 8, 1828, moving to ...da in 1844.

...his early life he was a school ...er. He began his public career ...Florida in 1849, when he was elected ...k of the circuit court of Marion ...ty, which position he held for six ...rs. He then engaged in business ...a year.

...In 1856 Governor Brown commissioned him to organize an independent ...pany of mounted volunteers to ...ve as a protection against Indian in...sion, he filling the position as its ...tain for eighteen months, when it ...considered safe to disband the ...pany.

...He then returned to Ocala and read ...w, being admitted to practice in ...1. He practiced his profession for ...ear, and was then commissioned by ...vernor Milton to raise a company ...the Civil War, which became a part ...the South Florida Regiment.

General Bullock fought in the Kentucky campaign with General Kirby ...ith, being soon promoted to a ...adeley.

...He was in the battle of Chickamauga ...d at Missionary Ridge, at which latter place he was captured. He was ...prisoner on Johnson's Island from ...vember 1, 1863, until March, 1864. ...He was in many other battles, and ...ached the rank of brigadier-general. ...He was wounded at Murfreesboro in ...ecember, 1864, and disabled for further service.

When he recovered he resumed the ...ractice of his profession in Ocala, being later appointed judge of the circuit court, but was ousted by the reconstruction in 1868.

He was Democratic nominee for ...ieutenant-governor in 1872, and a ...olden elector in the campaign of 1876. ...In 1880 he was elected clerk of the ...uit court for Marion county.

He ably represented his district in the Fifty-first and Fifty-second Congresses, retiring from public life in ...92.

General Bullock had the distinction of being the oldest voter in Marion county.

[General Bullock was especially popular in Alachua county, many of the old Veterans having served with him in the war between the States, and upon the occasion of his visit to Gainesville at the unveiling of the Confederate monument erected by Kirby Smith Chapter, U. D. C., he was given one of the greatest ovations ever accorded a man in this city. Gainesville and Alachua county extend sympathy to the bereaved relatives in their hour of affliction.

ANOTHER GOOD MAN AT REST.

Col. Angus Paterson Died at His Home in Madison.

Madison, July 28.—Angus Paterson died here Thursday night at the residence of his sister, Miss Katherine Paterson, after a lengthy illness. He was born in Glasgow, Scotland, September ...1, but had lived most of his life here. He was an elder in the Presbyterian church, and was an active and consistent member, whose place will be filled. For years he was superintendent of the Sabbath ...

He was known throughout the State as a safe and efficient lawyer, having filled responsible positions; was a member of the constitutional convention of 1885; he was an enthusiastic Mason and member of the Masonic order and took an active interest in the proceedings of that order. He leaves a sister and brother at this place and a brother in Gadsden county, and many friends who sincerely mourn his death.

POSTMASTER BARRON HERE.

Wounded Postmaster of Evinston Visited Gainesville Friday.

J. F. Barron, postmaster of Evinston, was a visitor to Gainesville Friday.

It will be remembered that Mr. Barron was seriously wounded a few days ago while lying on a counter in the postoffice reading, it is supposed by John P Hester, a merchant of that town. Nine buckshot took effect in his side, but none proved serious, although the victim was confined to his room for some time. He is enabled to be around on crutches now, however, and says he is feeling extraordinarily good under the circumstances.

Mr. Barron has many friends in this city who were glad to see him, and who sympathized with him in the death of his son, Watt Barron, who was shot and killed instantly at the time his father received the load.

John P. Hester has not yet been captured.

From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Guaranteed to cure stomach, liver and kidney disorders; at all drug stores; price 50c.

DEATH OF MR. GODWIN.

A Good Man Passes Away After Illness of Several Weeks.

J. J. Godwin of Rex, one of the oldest and most prominent and most generous-hearted residents of the East End, died at his home Thursday, after an illness of several weeks of nervous prostration.

Deceased was born in Bradford county about forty-eight years ago. He moved to Alachua county, settling at Rex, in 1885. In 1888 he married Miss Katie Thomas. She died, and in 1898 Mr. Godwin was married to Miss Minnie Blitch of Santa Fe, daughter of W. M. Blitch, and they have lived happily together ever since.

Mr. Godwin was a member of the Baptist church, and has been a faithful worker in both the Hawthorn and Rex churches. At one time he was superintendent of the Baptist Sabbath school at Hawthorn. He was for nineteen years engaged in teaching school, and was the founder of the famous Godwin Seminary at Rex, one of the best regulated and most successful schools in the county.

Deceased is survived by a wife and six children—Sydney and Winona by his first wife, and Arthur, Ernest, Jewel and Gladys by his last, to whom the sympathy of friends is extended.

The funeral will be held this morning, and the interment will be in the Melrose cemetery, where his first wife and departed child are buried.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars' outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by all druggists.

Mr. Phifer's Patent.

D. M. Phifer of this city has always possessed an ingenious turn of mind, and his latest invention is destined to place him on easy street with a straight road before him.

Mr. Phifer has invented an improved turpentine chipper, which he claims is not only more easily manipulated than the kind now in use, but will do the work of four men in the same length of time. He will send the model to Washington at once, and hopes to have the patent issued and the tool before the public in a few weeks.

The chipper is simple, but like all other good inventions, the simplicity is that which counts.

The Boss Worm Medicine.

H. P. Kumpe, druggist, Leighton, Ala., writes: "One of my customers had a child which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 119 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. Sold by W. M. Johnson.

The East Florida Telephone Company has placed an instrument in the factory of the Gainesville Bottling Works which will in future give that concern an opportunity to talk to their out-of-town customers and receive orders.

Lee [illegible] has accepted a position as delivery clerk with the Southern Express Company in this city. This is merely the beginning of Lee's career, and his friends may expect to see him advance superintendent in the course of time.

Miss Mary Baird entertained last night in honor of Miss Mabel Lamb, a charming young lady of Newberry who is here as her guest. There were quite a number of young people present and all who attended report a pleasant evening.

J. A. Maultsby, the brick manufacturer of Campville, was among those who came to Gainesville on business yesterday. Mr. Maultsby conducts one of the largest brick manufacturing establishments in the State, and says he is keeping a large force busy.

G. Maurice Arnow, formerly of Micanopy, but now holding a position as railway postal clerk between Jacksonville and Port Tampa, was in the city yesterday. He was en route to Jacksonville from his old home at Micanopy, where he has been to visit his mother, Mrs. M. C. Arnow.

A carload of brick has been received from Georgia for the new Episcopal church, which means that the brick work will be continued at once. There has been a delay on account of material, but the contractors promise a rush of the work in future, and the building, which will be one of the finest of the kind in the State, will be finished in a few weeks.

W. Adams of Windsor was a visitor to this city yesterday, having come on a trading expedition. Mr. Adams, notwithstanding his success, which he has enjoyed for many years, is not quite satisfied, and desires to dispose of his interests and remove to South Florida. Anyone desiring to locate in a first-class country might do well to correspond with him.

J. H. Rollins of Rochelle was in the city yesterday. Mr. Rollins is one of the old residents of that section, and has many friends who are always glad to accept his hospitalities, for he is one of the most hospitable and entertaining men at his home, or anywhere else for that matter, who was ever known. He has been in ill health for the past few years, but friends are glad that he is yet able to "be about" and visit the city once in a while.

F. B. Hester, agent of the A. C. L. at Evinston and an all-round good citizen, was among the visitors to this city yesterday. Mr. Hester states that the fruit and vegetable movements are all over now from his section. They were heavy, however, and the growers as a rule have no "kick" to make on the returns of the greater part of the shipments. The crop prospects are good and the chances are the farmers will harvest well the coming fall.

The Florida Fish and Produce Company is the name of a new concern which is to open in this city Tuesday, August 1st, with J. Harry McMillan as manager. The new firm will be located at 117 West Union street, and it will be the purpose to furnish to the public everything in fish and produce that can be secured from the Florida, Georgia and Tennessee markets. It is the intention of Manager McMillan to conduct a first-class and up-to-date place, and one which will be a credit to the city.

John G. Dampier of Hague, member of the Board of County Commissioners from his district and chairman of the board, was trading in the city yesterday.

Mesdames Emmett Taylor and B. T. Arnow left yesterday for Micanopy, where they will spend a week with Mesdames M. C. Arnow and John Whittington.

Capt. T. M. Venable of Arredondo was in town yesterday and made The Sun an agreeable call. He reports a little too much rain in his section for the welfare of growing crops.

Mr. and Mrs. J. M. Haile and children of Alachua were visitors yesterday to Gainesville. Mrs. Haile and the children were en route to Jacksonville, where they will be guests of relatives.

George Taylor of Palmer, superintendent of the Gainesville Peach Orchard Company's immense orchards, was a business visitor to the city yesterday. He paid The Sun an agreeable call.

The elegant home of Captain J. N. Strobhar, East Church street, has been freshly painted, which enhances the appearance of the place considerably. The fence has also been very much beautified.

J. D. Barron of Millards called at The Sun office on Saturday evening on his way home from a visit with his father, who resides on the Suwannee River, and ordered The Twice-a-Week edition sent to his address.

Col. E. C. F. Sanchez, who has been indisposed for the past few weeks, has gone to the mountains of North Carolina to recuperate. Friends trust that the change will be beneficial and that he will regain his normal health.

Mrs. F. R. Seawell and son Frank are at home again, after several weeks spent pleasantly at St. Petersbug. Mrs. Seawell went for the benefit of her health, and friends will be glad to learn that she is very much improved.

J. A. Trimble of Archer was in the city yesterday and renewed his subscription to The Sun. Mr. Trimble does not visit Gainesville often, but when he does he always meets with a hearty welcome from his numerous friends.

The genial J. H. Holly of Arredondo was among the Saturday visitors to Gainesville who made the editor's heart glad by renewing his subscription. He is one of the trustees of the Arredondo school and reports the people of that sub-school district as wide-awake to the importance of education.

Rev. Francis H. Craighill of Holy Trinity Episcopal Church favored the people of North Gainesville with a fine sermon Friday evening, preaching in North Gainesville Hall. These services, which are held weekly on Friday, are undenominational and the ministers of this city alternate in filling appointments.

Hon. W. M. Blitch of LaCrosse, who has been at the bedside of his son-in-law, Prof. J. J. Godwin, at Rex for the past week, passed through the city yesterday en route home. The funeral of Prof. Godwin occurred at Melrose on Friday last and was attended by a large concourse of people, all the places of business being closed out of respect to the deceased. Mr. Blitch was accompanied home by his youngest daughter, Miss Alma, who has been at Seabreeze for the past two weeks.

NOTHING NEW IN TAMPA SITUATION

Dr. Porter Wires Dr. Hodges That There Are No New Cases.

PEOPLE WORKING TOGETHER

A Thorough Cleaning Up of the City and Suburbs Being Enforced by the Health Officials and Further Trouble Not Anticipated.

There are no new developments in the yellow fever situation in Tampa, and the authorities are using every precaution in an effort to prevent a spread of the disease.

Dr. J. Harrison Hodges, agent of the State Board of Health in this city, Saturday received a telegram from State Health Officer Dr. Joseph Y. Porter as follows:

"The situation here is unchanged since my first statement, but the mosquito destruction in cordoned district in West Tampa is being pursued vigorously. No new cases. All rumors investigated. Keep your people cool."

The sanitary authorities of Tampa have commenced a rigorous campaign of cleaning up, and inaugurated Friday the war upon violators of the sanitary ordinances by serving warrants of arrest upon the owner and occupants of the Saratoga saloon and restaurant on upper Franklin street, for maintaining a nuisance in the rear of their establishment, and Chief of Sanitation H. H. Scarlett proposes to bring up with a sharp turn all who are in the least guilty of an infraction of the sanitary laws. The city authorities are joining with the State health officer in taking extraordinary precautions to prevent any spread of fever.

Dr. J. M. Grantham, the city physician, has sent a circular letter to all the physicians in the city requesting that they make a daily report of every case of any kind of fever which may occur in their practice, in order that the city health department may be in constant touch with the State health officer by informing him of every phase of sickness which may develop.

A SAD ACCIDENT.

Little Son of Rev. and Mrs. Rogers Run Over by Heavy Wagon.

A very sad accident occurred in Tallahassee Friday afternoon to Master Malbra, the six-year-old son of Rev. and Mrs. S. B. Rogers of this city, which may cost the little victim his life.

Master Malbra was out on a picnic with some of his mother's relatives, together with other children. Upon returning home in the afternoon the wagon, which was a two-horse vehicle heavily loaded, ran over a stump and the little fellow was precipitated to the ground and both front and rear wheels passed over his body about the chest.

A telegram on Saturday morning brought Mr. Rogers the sad information and he left immediately for Tallahassee. He did not know whether he would find the child living or dead.

Friends of Mr. and Mrs. Rogers extend deepest sympathy in this sad misfortune and trust that the patient will recover.

BIG CLEARANCE SALE.

Gainesville Furniture Company Will Offer Big Bargains.

The Gainesville Furniture Company are fast gaining a reputation as bargain-givers, and it seems that every sale is a little better than the last, if such a thing be possible.

This firm has just finished taking stock, and announces in this issue that they find the stock in many lines entirely too large. They have consequently decided to inaugurate a grand mid-summer clearance sale, which will last for fifteen days, and it will pay intending purchasers to take advantage of this remarkable offer.
